Social.

Work is changing. In the new era of productive mobility, there is a growing desire for collaborative spaces that transcend the ordinary of today's progressive places. Millbrae offers two designs, two comforts, and two postures.

———— The Contract line features firm cushioning and an upright posture for brief but productive interludes. Designed primarily for spaces like lobbies, welcome area, waiting room that welcome and host a certain number of people intensively, it allows you to create a true variety of configurations.

———— The soft Lifestyle series is designed for the relaxed postures in social officing and residential setting. It creates a social feel in your workplace. Or comfortable-modern at home. It is generously proportioned with plush cushions and an elegant cross-stitch tufting detail.

———— Complementary with both Contract and Lifestyle collections, bolsters provide division between seats.
